LYCOS BLANZA

SOFTWARE ENGINEER

CONTACT

0995 678 3687

blanzalycos@gmail.com

Lipa City, Batangas, PH

TECH SKILLS

Languages: Python, TypeScript, JavaScript, Java, C++

Web & Mobile: React, React Native, Expo, HTML & CSS

Backend & Data: Node.js / Express, PostgreSQL, Prisma, Supabase, MySQL

Intelligent Systems: ESP32, IoT, Computer Vision, Machine Learning

Analytics: Pandas, R, tidyverse

Tools: Git, VS Code, Linux / CLI

SKILLS

- Analytical Thinking
- Problem Solving
- Self-Directed Learning
- Attention to Detail
- Team Collaboration
- Technical Writing
- Graphic Design & Video Editing

CERTIFICATES

- Intro & Intermediate Python
- Intro & Intermediate R
- Intro to the Tidyverse
- Data Manipulation with Pandas
- Statistical Fundamentals
- Exploratory Analysis Theory
- Statistical Experimentation
- Deep Learning for Text with PyTorch

Issued by DataCamp

PROFILE

Computer Science student who builds full-stack applications and intelligent systems, with a focus on privacy, usability, and reliable software. My work spans web and mobile applications, embedded safety systems, and tools that organize complex information. Experience in graphic design, video editing, and web design helps me turn technical requirements into interfaces people can understand. Seeking a software development internship.

PROJECTS

SafeSeat — Undergraduate Thesis

Embedded Systems · AI Training Lead

- Privacy-conscious vehicle monitoring system that fuses multi-sensor inputs (mmWave radar, MLX90614, FSR, MPU) to identify potentially abnormal occupant conditions.
- Triggers conditional camera verification and context-aware emergency logic with user-defined escalation settings.
- Consent-driven privacy model: session-scoped data with no long-term storage.

Tech: ESP32, C++, Python, Computer Vision, IoT

DocVia — Web Application

AI-Powered Learning Platform

- Turns PDF uploads into structured lessons with roadmap segmentation and a segmented lesson view.
- Includes an AI tutor chat, contextual questions, and quizzes that support active recall.

Tech: React, TypeScript, Vite

NEXA — Mobile Application

Fitness Tracker

- Plan routines, log workouts, and revisit exercise history through a consistent, accessible interface.

Tech: React Native, Expo, TypeScript, AsyncStorage

EDUCATION

De La Salle Lipa — 2023 – 2027 (Expected)

Bachelor of Science in Computer Science

LCC Silvercrest School — 2021 – 2023

Senior High School

Bolbok Integrated National High School — 2019 – 2021

Junior High School
